

### In car VISION practice

**Visual Lead:** (20-30 seconds) think horizon.  
Get a mental picture of it.

**Visual Control Zone:** 12-15 seconds; half the distance of Visual Lead. Count it out; get a mental picture of it

**Space Behind:** Ask parent to park vehicle next to the curb on semi-busy street. Switch places, while sitting in driver's seat, use rear view mirrors; get a glimpse of what's happening behind and beside your vehicle.
